EXPERIENCE

Best Buy Canada
Consumer electronics retailer, in stores and online

Senior Software Engineer — Mar 2024 – Present · Vancouver, BC

- Won Best Buy's hackathon by engineering one of the company's first AI-enhanced customer experiences, streamlining mobile phone purchases to improve in-store conversion and customer satisfaction.
- Helped recover and preserve $18M in vendor funding with an Android app for warehouse operations.
- Led development of Best Buy Canada's design system: a scalable component library, with shared standards between design and development.
- Spearheaded the Mobile Activation team's shift to AI-driven development, setting the tooling standards and practices the team adopted.
- As tech lead of the Mobile Activation team, mentored several back-end engineers into successful full-stack roles.
- Saved the organization hundreds of hours by shipping, in a single day with AI-assisted development, a browser extension that automated JIRA link migrations during the move to JIRA Cloud.

Software Engineer — Aug 2021 – Mar 2024 · Vancouver, BC

- Delivered the chain-wide Enterprise Returns Application in four months as development lead, with Nx, TypeScript, Next.js, NextAuth.js and React, keeping the rollout of Best Buy's new transaction system on track.
- Saved the Mobile Activation team more than 3 hours a week by automating the build, release and release-approval processes.
- Reached the finals of Best Buy's hackathon with an LLM-powered check that flagged when the wrong mobile device was scanned during a sale.

ForteCare
Healthcare AI start-up automating the specialist referral journey

Chief Technology Officer & Co-Founder — May 2026 – Present · Los Angeles (remote)

- Made de-identifying patient records 100x cheaper and 10x faster, while raising accuracy from 97.3% to 99.5%.
- Led AI integration across the platform and developed medical MCP servers and skills for LLMs.
- Architected the platform: Next.js apps and 15 NestJS microservices on Azure Container Apps in an Nx monorepo, integrating with Epic and Cerner EHRs over FHIR and HL7.

ServiceLink
Workforce management software for some of North America's largest utilities

Software Engineer — Jul 2019 – Aug 2021 · Vancouver, BC

- Architected the new client UI with React, Microsoft Fluent UI, TypeScript, Redux and Redux Saga.
- Sharply increased UI development speed by migrating the client application from jQuery to modular React components.
- Saved hours on every release by modernizing and automating the build and release-notes process with Jenkins pipelines.

Software Support Engineer — Jul 2018 – Jul 2019 · Vancouver, BC

- Strengthened application security with Nginx, so the application passed the HCL (IBM) AppScan.

EXPERIENCE (continued)

Protrade Asia Limited
Trading and logistics for industrial raw materials

Special Assistant — Oct 2016 – Jun 2017 · Taipei, Taiwan

- Cut the time spent on price-update emails by 80% by automating them with VBA.
- Created VBA macro-enhanced Excel spreadsheets that turned sales data into graphical reports.
