Education

University of British Columbia

Vancouver, British Columbia, Canada

Bachelor of Science in Chemistry

- Received the President's Entrance Scholarship.

Experience

Best Buy

Vancouver, British Columbia, Canada

Best Buy is a large American multinational retailer providing technology related products and services

Senior Software Engineer (Developer III)

- Lead front end developer on the Stores Mobile Activation team.
- Migrated the Mobile Activation application to Next.js and Nx Monorepo.

Mar 2024 Present

Software Engineer (Developer II)

- Lead developer for the Enterprise Returns Application (ERA). The ERA application is used in all stores to help customers with returns and was urgently needed to not cause delay of the roll out of Best Buy's new transaction system. This was completed on schedule in 4 months using Nx, TypeScript, Next.js, Next Auth, and React.
- Saved more than 3 hours weekly by automating the build, release, and release approval processes.
- Automated the migration from Bitbucket to GitHub using simple-git and Node.js to remove old and merged branches.

Aug 2021 Mar 2024

Service Link

Vancouver, British Columbia, Canada

Service Link is a workforce management software company servicing some of the largest utility companies in North America such as BC hydro, Con Edison, and Aqua America

Software Engineer

- Architected and designed the new client UI using React, Microsoft Fluent UI, Typescript, Redux, and Redux Sagas.
- Improved and simplified the client application login process with Microsoft Azure Active Directory.
- Attracted new customers by replacing the existing map with the ESRI map.

Jul 2019 Aug 2021

Software Support Engineer

- Strengthened application security using Nginx which allowed the application to pass the HCL (IBM) AppScan.
- Created a dynamic PDF report generator using Apache PDFBox.
- Greatly improved the quality of release by replacing the Centralized Workflow with the Gitflow Workflow.

Jul 2018 Jul 2019

Protrade Asia Limited - Subsidiary of Acer Inc.

Taipei, Taiwan

Protrade is a full service trading and logistics company dealing in industrial raw materials

Special Assistant

- Designed software to automatically send price updates via e-mails using VBA. Reduced time spent by 80%.

Oct 2016 Jun 2017

Projects

Covid-19 Tracker App

<https://covid-19-tracker.app/>

An interactive website to track the Covid-19 pandemic

- React / Typescript / Material UI / Redux / Redux Saga / ESRI / D3 / Node / Express / Nginx

Portfolio Website
